

**CARITAS INDIA welcomes all**

STATE LEVEL  
MULTI HAZARD DDMP  
PROCESS REVIEW

## SALIENT POINTS COVERED IN INCEPTION REPORT AND ISSUES PRESENTED DURING INCEPTION WORKSHOP

- ◉ Incorporation of other hazards beyond floods
- ◉ Use of GIS mapping to show the risk zone
- ◉ Role of different stakeholders
- ◉ Support required from the DDMA
- ◉ Appointment of point person from DDMA
- ◉ Each district has dedicated person from agencies
- ◉ Space for the agency point person in district office.

# HIGHLIGHTS OF ISSUES DISCUSSED DURING DISTRICT LEVEL CONSULTATION WITH ALL STAKEHOLDERS

- ◉ Overall clarity of the process how the entire DDMP making process will roll on
- ◉ Sharing of all relevant data from all line departments
- ◉ Formation of advisory board
- ◉ Individual meeting with line departments
- ◉ Stock taking of district level inventories
- ◉ NGO consultations

# ISSUE DISCUSSED DURING CONSULTATION

- ◉ Lack of resources with department
- ◉ Lack of coordination among the department
- ◉ Need of early warning system at village level.
- ◉ There should be Disaster management Plan at village level.
- ◉ There is a need of installing river gauge in each vulnerable point of river.

- ◉ There will be periodic disiltation of the river
- ◉ There should be pre disaster assessment of the villages.

# HRVCA DETAILS

- ◉ Village covered - 34
- ◉ Panchayat - - 27
- ◉ Block - 14
- ◉ District -04
- ◉ Flood prone - -28
- ◉ Drought- -07
- ◉ Fire -08

- ◉ Disaster History
- ◉ Demographic profile.
- ◉ Social and resources Mapping.
- ◉ FGD
- ◉ Physical verification of Resources.
- ◉ Transit walk.
